The Making of the Macintosh

1955 STEVE JOBS 2011  
"Innovation distinguishes between a  
leader and a follower."

"The keyboard that started it all..."  
Original 1984 Macintosh Keyboard (M0110)

"Your time is limited, so don't waste it living someone else's life. Don't be trapped by dogma—which is living with the results of other people's thinking. Don't let the noise of other's opinions drown out your own inner voice. And most important, have the courage to follow your heart and intuition. They somehow already know what you truly want to become. Everything else is secondary."

"There's the crazy ones, the misfits, the rebels, the troublemakers, the round pegs in the square holes... the ones who see things differently— they're not fond of rules... You can quote them, disagree with them, glorify or vilify them, but the only thing you can't do is ignore them because they change things... Because the ones who are crazy enough to think that they can change the world, are the ones who do."
